

• Welcome home the beauty of glass.

Home begins
at the door.

By choosing a Therma-Tru door system with decorative glass, you can create a beautiful, durable entrance that makes a statement – one that says you have high standards for style, quality and craftsmanship. Our wide array of glass designs, from simple to intricate, reflect the home design trends and homeowner desires of today and tomorrow.

With Therma-Tru glass, you can expect the quality and trust that can only come from the Therma-Tru brand. More building professionals put their trust in Therma-Tru, the preferred brand among builders and remodelers,* because of its outstanding beauty, performance and durability. Entryways come to life with Therma-Tru glass and provide beauty and craftsmanship you can't find anywhere else.

3

And doors come to life with Therma-Tru® glass.

- Numerous glass colors, textures, shapes and coming options complement any Therma-Tru door, and provide flexibility to match any homeowner's personal style.
- Our glass designs are researched in the market to ensure they are highly rated in consumer preference.
- We have decades of experience and technical know-how in creating quality glass designs that deliver optimal performance.
- Therma-Tru decorative glass is handcrafted and built with all-glass bevels for premium quality.
- Backed by a lifetime limited warranty when installed in a fiberglass door system to help ensure peace of mind should any issues arise during or after installation.
- All Low-E and clear glass panels are tempered to provide added safety.

*Brand Use Studies, 2014 *Builder* and 2013 *Remodeling* magazines.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

Classic-Craft® Premium Entryways

Thanks to 13 exclusive decorative glass families and multiple sidelite and transom configurations, you'll find the ideal style to enhance any home when you select a Classic-Craft premium entryway. Close attention to detail produces truly distinctive designs that showcase and bring life to your entryway.

Beautiful in every way.

More than 10%
wider glass*

**Classic-Craft
Premium Glass**

Standard Glass

- Classic-Craft glass is more than 10% wider*, welcoming more light into the home and creating a distinctive entryway.
- Fiberglass lite frames are made with the same material as the door to blend seamlessly with the rest of the entryway when stained or painted.
- All Classic-Craft clear glass options are Low-E, providing long-term energy efficiency.
- All decorative and privacy glass options feature triple-pane construction that helps reduce outside noise while increasing energy efficiency.
- Any Therma-Tru glass added to a Classic-Craft entryway is covered by the same outstanding lifetime limited warranty.
- All Classic-Craft sidelites are flush-glazed. This process integrates the glass during the manufacturing process, eliminating the need for a separate lite frame and providing a high-performance weather seal.

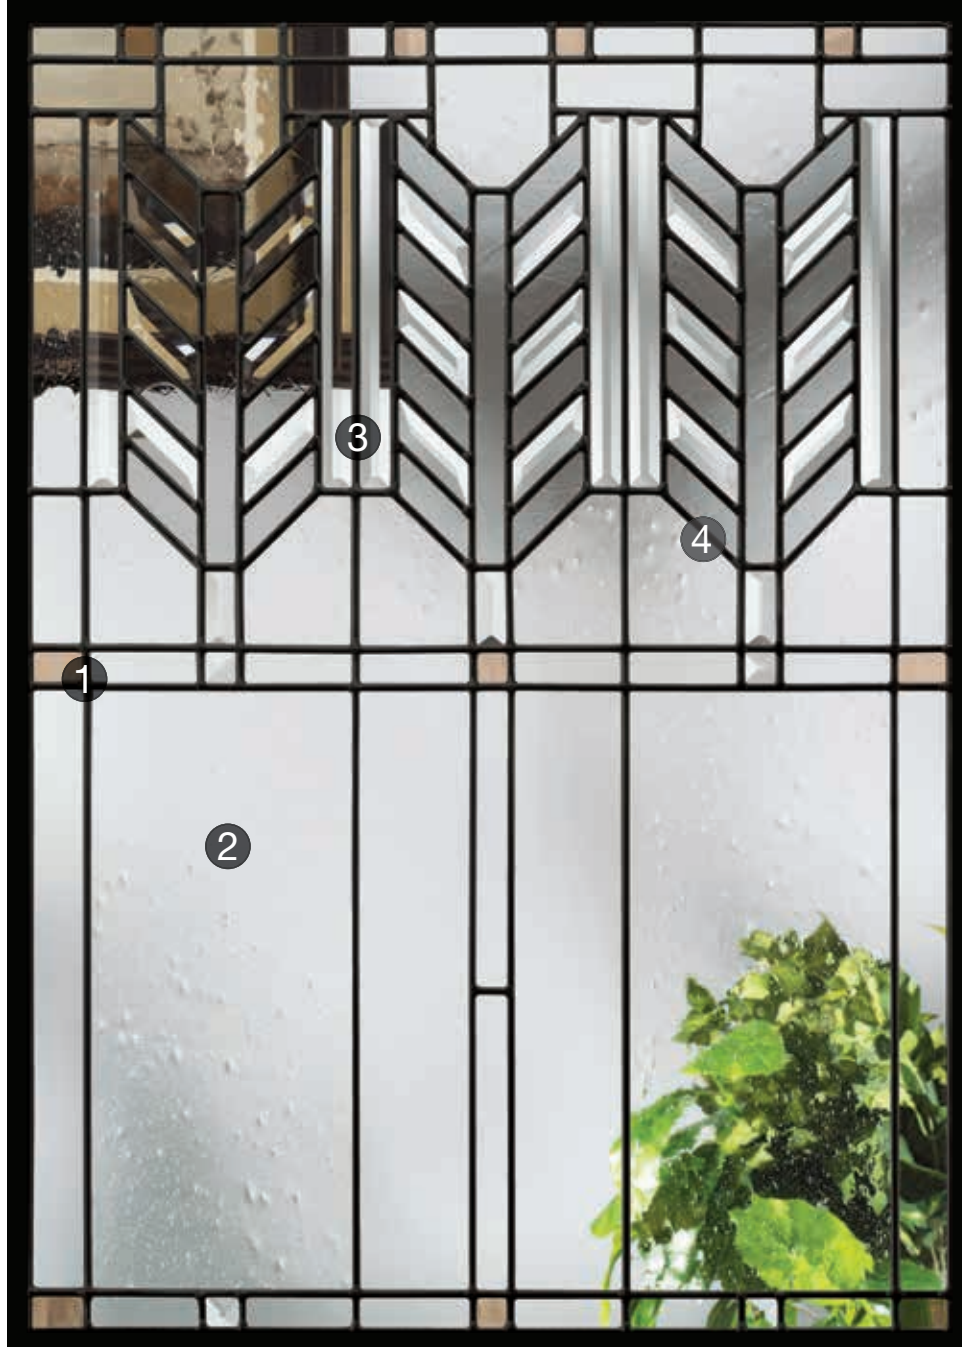

*Compared to other standard fiberglass doors.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

Fiber-Classic® & Smooth-Star® Doors

Therma-Tru. Fiber-Classic and Smooth-Star doors offer a variety of decorative glass options designed to meet any taste. This selection is inspired by various home and architectural styles, from Victorian to Contemporary. And whether you need greater efficiency or privacy, there's an option to suit you.

Great style for any home.

- 16 decorative glass designs offer a look that matches any home and homeowner's style.
- Standard 22" glass width with a Lip-lite frame and flush-glazed options with 25"-27" glass width invite light into the home for a more brilliant interior.
- Low-E glass is available for internal blinds, divided lites and clear glass, providing exceptional energy efficiency.
- A wide variety of glass that meets ENERGY STAR® requirements is available.

Triple-Pane Construction

All triple-pane decorative and privacy glass panels are enclosed between tempered glass, offering superior quality and thermal performance.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on ENERGY STAR qualified products.

Privacy Glass

Elegant designs with higher opacities.

All Therma-Tru® entry door collections and sidelites can be fitted with our four elegant privacy glass designs. Each of them enhances a home with privacy, peace of mind and the beauty of textured glass, while still allowing natural light to brighten the interior.

- Varying opacity levels range from 8 - 10.
- ENERGY STAR® qualified options provide excellent energy efficiency.

- All privacy glass options are triple-pane, providing added security, thermal efficiency and reduced sound transmission.
- Triple-pane construction also allows for an easy-to-clean surface.
- All privacy glass is covered by a lifetime limited warranty when installed in a Therma-Tru fiberglass door system.

Divided Lites

Enhancing beauty with decorative appeal.

Enhance the beauty of any home with a variety of divided lite options for entry and patio doors. Coordinate with the home's window patterns for a cohesive look and increased curb appeal. Choose from Colonial, Craftsman or Prairie styles to suit the home's architectural details. Available glass options include elegant privacy, energy-efficient Low-E and clear glass.

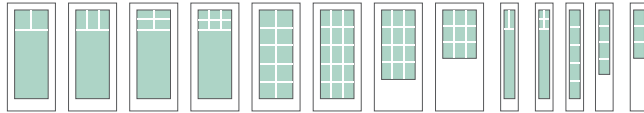

Simulated Divided Lites (SDLs) with Grilles Between Glass (GBGs)

Shown with flat bronze GBGs.

- SDL bars are adhered to the interior and exterior panes of tempered glass.
- SDL bars layered over GBGs create a more authentic divided lite look.
- Wood-grained or smooth textures can be stained or painted to complement the door and home.
- We recommend applying SDLs over bronze GBGs with flat bars to achieve the most authentic divided lite look.

- Snaps on and off the interior pane of tempered glass.
- Easily removable for cleaning.
- Can be stained or painted to complement home décor.

Available Grid Patterns

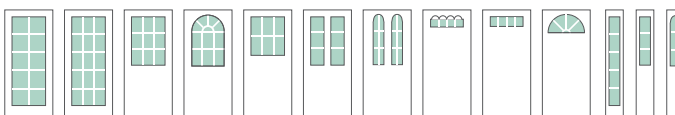

Fixed Grilles

- Molded as part of the lite frame on the interior and exterior panes of tempered glass.
- Can be stained or painted to complement home décor.

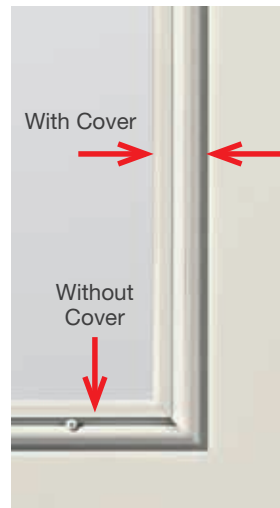

Available Grid Patterns

Impact-Rated Glass

Therma-Tru's Impact-rated glass meets high-wind and coastal region codes and regulations*, offering excellent performance in extreme weather conditions while providing added protection.

- Used for products in high-wind and coastal applications, Therma-Tru measures the resistance of the glass to flying debris by firing a 2" x 4" wood stud at a speed of 34 mph to help prevent damage inside the home from severe weather.
- Available for 15 decorative glass options, as well as privacy and clear glass.
- Impact Lip-lite frame is constructed of aluminum for superior durability.
- Special laminated glass construction helps protect the interior of the home.
- Tested to meet code requirements in high-wind and coastal areas, including parts of Florida, Texas and the Carolinas.*
- Some glass and door configurations are available for use in High Velocity Hurricane Zone (HVHZ) and Wind-Borne Debris Regions (WBDR).
- Designed to withstand wind forces up to 195 mph (DP-65) for high-wind and coastal applications when paired with an approved Therma-Tru HVHZ Impact-rated door.** Able to withstand wind forces up to 167 mph (DP-50) in a Therma-Tru non-HVHZ Impact-rated door.

Therma-Tru. Impact Lip-Lite Frame

The Therma-Tru Impact Lip-lite frame features durable, paintable aluminum construction with an attractive scrolled profile for a thin, sleek appearance and a screw channel cover to hide unsightly screws.

Available Door Collections

Fiber-Classic Mahogany Collection... Fiber-Classic Oak Collection... Smooth-Star Profiles & Traditions Steel Pulse.

Glass Shapes

6 WBDR / HVHZ Options – This symbol identifies glass that is available for use in Wind-Borne Debris Regions and the High-Velocity Hurricane Zone when paired with an approved Therma-Tru door system. Please consult your Therma-Tru seller for more details.

6 WBDR Options – This symbol identifies glass that is available for use in Wind-Borne Debris Regions when paired with an approved Therma-Tru door system. Please consult your Therma-Tru seller for more details.

*Must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru Impact-rated product approval. Visit www.thermatru.com for product approvals. Follow weather and news reports in order to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

**Impact and structural performance of a single Therma-Tru fiberglass door with a steel plate lining and a Therma-Tru multi-point locking system.

Internal Blinds

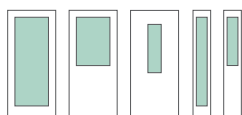

Internal blinds provide the privacy and convenience of a cordless blind enclosed between glass. Control the desired level of light and privacy with the simplicity of a single handle.

- Protected between two panes of tempered glass for enhanced safety and performance.
- With no dangling cords, this is a kid- and pet-friendly choice.
- Blinds remain dust free, and glass is easier to clean than traditional blinds.
- Choose Low-E glass for maximum energy efficiency or standard clear glass.
- Convenient single-hand operator opens, closes and tilts the blinds.
- Privacy bars eliminate visibility into or out of the home, as well as reduce sun glare.

Energy Efficiency

In any region or climate, energy efficiency is key. More than 80% of Therma-Tru® door and glass options are ENERGY STAR® qualified and National Fenestration Rating Council (NFRC) certified, helping save money on energy costs.

- Most Therma-Tru decorative glass features triple-pane construction, creating an exceptional thermal and acoustical barrier.
- Factory-coated Low-E glass comes standard for Classic-Craft® and Pulse®, and is also available as an option for Fiber-Classic®, Smooth-Star® and Steel clear glass, to deliver exceptional energy efficiency.

In cold weather, Low-E glass can help reduce the loss of heat by reflecting the heat back inside the home.

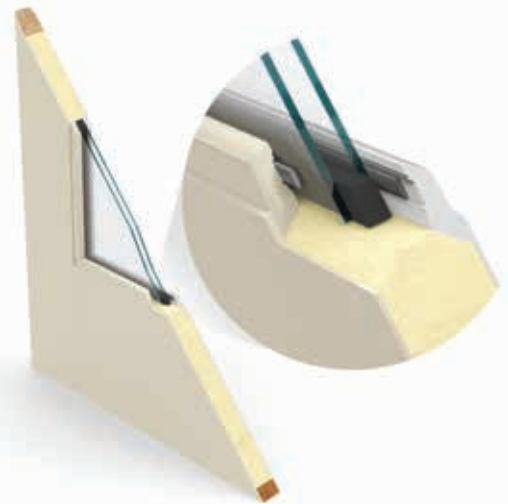

In warm weather, Low-E glass reflects the sun's rays off of the glass helping to keep the interior of the home cool.

Flush-Glazed Glass

Glass built directly into the door during the manufacturing process eliminates the need for a lite frame and provides a high-performance weather seal.

- All Classic-Craft® sidelites are manufactured with flush-glazed glass.
- Select Classic-Craft, Fiber-Classic and Smooth-Star doors have flush-glazed glass options.
- Flush-glazed glass features clean lines and eliminates the need for screw plugs.
- Backed by a Warranty Rider that provides protection in case of accidental glass breakage during residential and multi-family construction or installation.

Quality Testing

We put our glass through multiple rigorous tests to help ensure it will live up to even the toughest quality and performance expectations.

Slam Test: Glass-fitted door is opened and closed repeatedly. Our slam tests are performed to commercial standards, which are stricter than what is required for residential use, to help ensure the durability and performance of the glass and door.

Frost Point Test: We expose our glass to weather-like conditions to help verify that it does not allow moisture and condensation to get trapped inside, helping to preserve the beauty and quality of the glass.

Lifetime Limited Warranty

We place a lot of emphasis on achieving the highest level of customer satisfaction. That's why Therma-Tru® fiberglass door systems carry a lifetime limited warranty. Should any issues arise during or after installation, we'll address them in a professional, timely manner.

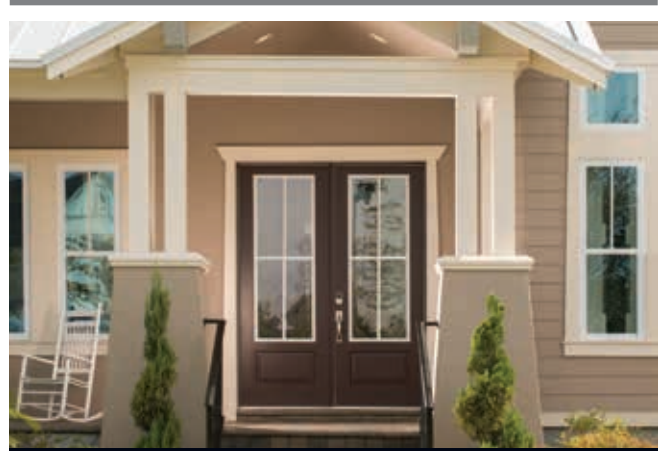

Special Quote Program

Don't sacrifice the look you want. In addition to thousands of standard glass choices, we offer additional glass options through our Special Quote Program to help you find the right look for virtually any home.

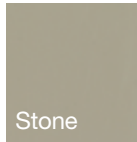

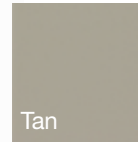

Privacy Glass

Achieve the desired look and level of privacy with additional options, including white-frosted glass shown above.

Inspirational Designs

- With various glass colors, textures, shapes and coming options – designed with varying home styles in mind – Therma-Tru's glass portfolio helps create a stunning look to enhance any entryway.

Engineering Expertise

- We have decades of experience and technical know-how in creating seamless glass and high-performing door systems.
- Rigorous testing and evaluation helps ensure the glass and complete door system meet our high quality and performance standards.
- We back our glass with a lifetime limited warranty when installed in a Therma-Tru fiberglass door system.

Market Knowledge

- Our continual market research uncovers glass styles that meet the building needs of our customers, and the look and performance expectations of the homeowner.
- Our glass designs are highly rated in consumer preference and expand your ability to sell more glass in the market to satisfy customer needs.
- Therma-Tru is constantly working to understand changing building regulations and code compliance to provide products that meet or exceed industry standards.

Portfolio Breadth

- Our 29 decorative glass designs, and four privacy glass options, complement various home styles and homeowner desires.
- Divided lite options can complement the windows and architectural style of a home.
- Internal blinds provide privacy without hassles or safety concerns.
- Low-E glass offers outstanding energy efficiency, and more than 80% of Therma-Tru door and glass options are ENERGY STAR® qualified.
